

INTERIM RADIOLOGIST ROSTER

SUB-SPECIALTIES AND ASSIGNMENTS

JEFFERSON
RADIOLOGY

Why Interim Radiologists?

In our continued efforts to provide timely and accurate diagnostic results, we are excited to announce that we've expanded our radiologist support through partnerships with elite radiology groups across the country. This initiative is designed to increase our capacity and maintain the high standards of care Jefferson Radiology has been known for.

Through these partnerships, we now have access to over 40 highly experienced radiologists from practices such as Radiology Affiliates Imaging (New Jersey), Rad Partners SEAL Team, Rad Partners Matrix Team, and Elite Breast Imaging (Frisco, Texas).

Although these radiologists bring exceptional expertise, they will be supporting us in a flexible capacity. Due to scheduling limitations, their availability may be restricted at times. While these radiologists aren't full-time, we are confident that their combined support will enhance our capacity and help us improve turnaround times.

Need to speak with one of our interim radiologists?

- *For referring providers:* if you'd like to consult with one of our interim radiologists, please contact your physician liaison, and they will facilitate the connection.
- *For our hospital partners:* please reach out to your PSA for assistance.
