

INTERIM RADIOLOGIST ROSTER

SUB-SPECIALTIES AND ASSIGNMENTS

Revised, April 2026

Expanded Support. Sub-specialized Expertise.

In our continued efforts to provide timely and accurate diagnostic results, we've expanded our radiologist support through partnerships with elite radiology groups across the country. This initiative is designed to increase our capacity and maintain the high standards of care Jefferson Radiology has been known for.

Through these partnerships, we now have access to an additional 70 highly experienced radiologists from practices such as Radiology Affiliates Imaging (New Jersey), Rad Partners SEAL Team, and Rad Partners Matrix Team.

Although these radiologists bring exceptional expertise, they will be supporting us in a flexible capacity. Due to scheduling limitations, their availability may be restricted at times. While these radiologists aren't full-time, we are confident that their combined support will enhance our capacity and help us improve turnaround times.

NEED TO CONNECT WITH A RADIOLOGIST?

- **Referring Providers:** please contact your Jefferson Radiology Physician Liaison, and our team will help coordinate next steps or you can use the Tiger Text Directory to connect with a radiologist.
- **Hospital Partners:** please reach out to your PSA.
